

BLACKJACK PLUS

RULES

1. Blackjack Plus is a set of blackjack side bets for use in any standard blackjack game. In addition to their blackjack bet, the players may make one or more wagers on their total of the first two cards.
2. Blackjack Plus may be placed on any blackjack game.
3. As the players make their blackjack wager, they may also bet on one or more of the following five side bets based on the total of their initial two cards.
4. The player may count aces as either high or low for purposes of the side bets except the ace in a blackjack may only count as 11.
5. An ace may also count two different ways if the player makes multiple bets: for example, if the player bet on 2 to 6 and 12 to 16 and got an ace and a five, then both bets would win because the hand could be scored as both 6 and 16. The exception is that a blackjack is only a blackjack so if the player bet on 7 to 11 and got a blackjack he could not argue the ace counts as one.

PAY TABLE							
Bet	Decks	1	2	4	5	6	8
2-6	Odds	9-1	9-1	9-1	9-1	9-1	9-1
7-11	Odds	3-1	3-1	3-1	3-1	3-1	3-1
