

CONFIDENCE IN EVERY HAND

BEE-TEK[®] BACCARAT SHOE & CARDGUARD[™] SECURITY

CONFIDENCE WITH EVERY PULL

The BEE-TEK Baccarat Shoe features that offer security, reliability, and ease of use. It is designed to give casinos the confidence that every game at every table will proceed smoothly.

FEATURES

EASY TO READ DISPLAY

FULL INTEGRATION WITH
TREND BOARDS

INDUSTRY LEADING
CARD READ TECHNOLOGY

HERE'S THE DEAL

The BEE-TEK baccarat shoe uses a superior card reading technology called CardGuard Security. Its technology enforces the rules of baccarat for your dealer by verifying the result of the game and preventing overdraw and dealing errors. The shoe also authenticates every card that passes through it, ensuring the integrity of the game and protecting against a foreign card entering play.

THE SUPERIOR READER

The Bee-Tek Baccarat Shoe tracks the value and verifies the authenticity of the card using CardGuard Security technology. Compare CardGuard Security to dated UVF technology below:

UVF – SHOES AND CARDS

Games experience more frequent card read errors in potential player disputes for several reasons.

- UVF Ink can decay when exposed to casino lighting
- UVF Ink can transfer between cards while in storage resulting in marked card backs
- UVF Ink creates fluorescent dust which can obscure shoe cameras requiring more frequent cleaning and downtime

BEE-TEK WITH CARDGUARD SECURITY

The most advanced card security technology on the planet with over 2.1 Billion hands dealt without incorrectly reading the value of a card.

- Advanced algorithms are used to store the card value, a unique casino identifier and an error checking code to prevent incorrect values being read
- Printed with conventional inks the same way the rest of the card is printed
- Unlimited shelf life

CHOOSE THE RIGHT CARD

See our Bee card sheet to see if Bee 92 or Bee 18 cards are right for you.

CHOOSING SECURE DESIGN OPTIONS

See our guide on how to choose the right card design for your security needs.
